The University of the Arts offers guest wireless network service in the academic and administrative buildings and in the residence halls. Guests can register and connect to the wireless network for a 24 hour period, and then they will be required to register again. The wireless network to be used depends on the guest's location on campus. If the guest is in any of the residence halls, they should connect to the wireless network Dorm-Guest. If the guest is in any of the academic or administrative buildings, they should connect to the wireless network Uarts-Guest.

Guests will need to follow any instructions specific to the operating system of the device they are connecting.

1. Find and select either Dorm-Guest or Uarts-Guest SSID (wireless network) depending on your campus location. When you open a web browser you will be presented with a registration page. Click on 'Request an account for Uarts Guest internet access'.
